

**387 shops awarded in the**  
**“Estate Agents Energy Saving Award Scheme”**

(22 March 2022) The Estate Agents Authority (“EAA”) launched the “Estate Agents Energy Saving Award Scheme” (“Scheme”) in 2021 with the aim of encouraging estate agency shops to reduce their daily electricity consumption. The EAA announced the results today at an online award presentation ceremony.

Over 900 estate agency shops enrolled in the Scheme after the announcement in April last year. These estate agency shops submitted their electricity usage records from June to October 2020 and from June to October 2021 through the electricity usage calculator in the website of the Scheme, so that the EAA could calculate whether the participating shops had a year-on-year decrease of electricity usage in the latter few months.

According to the number of months in which electricity was successfully saved, a total of 387 participating estate agency shops were awarded as “One-star”, “Two-star” and “Three-star” Energy Saving Shop respectively. The three outstanding estate agency shops which saved the most electricity usage were conferred respectively the “Bronze Award”, “Silver Award” and “Gold Award”. Amongst all the awardees, the estate agency shop with the best performance saved 40% of electricity usage.

An online award presentation ceremony was held today in which the EAA Chairman Ms Elaine LIU, JP announced and congratulated the winners. Ms LIU said that “It is encouraging to see the active participation of the estate agency trade in the Scheme, demonstrating their contribution to the sustainability development notwithstanding the impact of the pandemic. Through the Scheme, over 250,000 units of electricity consumption were

saved. This is a significant saving. I sincerely hope that the estate agency trade will continue to fulfil their social responsibility and contribution to the society.”

The Award certificate and window stickers with the Award logo have been delivered to all the awarded estate agency shops so that they can display them in their shops for public recognition.

For the full list of awardees and the details of the Scheme, please visit the website of the Award Scheme at <http://csr2021.eaa.org.hk>.
